Flag: Follow up

Hi Lynn - I am trying to schedule 2016 workload for consultants and staff. Can you provide estimated dates EPA will provide comments on IOU SLERA RTCs and when EPA will be finished back checking of IOU RI RTCs?

Thanks! Chris

Hi, Chris. Sorry for the radio silence! I was out of the office part of last week and then we had to move floors, which is never a smooth process. For some reason I couldn't connect to our server today at work--so no email or internet for me today. I just got home and tried here and can get in though.

Yes, I am working on the SLERA RTCs! I'm also working on the DTSC letter/terms to allow transfer of oversight for Area 40. CH2MHill is working on comments to the Area 40 HHRA/ERA comments. Julie and I are still trying to line up contract support for the near future also. Slow but steady, Chris!

There was talk of a technical meeting this week but I don't think we need one just yet. Maybe in another week or two to discuss any outstanding issues. Peter Kvam sent me the invite to the AMPAC conf call on Thursday; I'll try to join that call if I can to help orient myself with the site.

Thanks for checking in!
Lynn

Hi Lynn - I am beginning to wonder if I have your email correct =). Can you please respond to let me know that you are receiving these and are working on the IOU SLERA RTCs? Thanks! Chris

Hi Lynn – Can you provide a status update on the following:

Comments on IOU SLERA RTCs.

Back check of RTCs into Final IOU RI

Next steps with Area 40

Thanks, Chris
